EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raja N. Saliba on November 19, 2009.

The application has been amended as follows:

In claim 1, at the end of the claim, insert as a new paragraph after the semi-colon, --;

wherein the shutter is configured to allow the at least one ball to freely rotate and roll along an inside surface of the valve body, thereby preventing the shutter from contacting a side wall of the valve body--.

In claim 17, line 2 of the claim, before "body", change "tubular" to --valve--.

Reasons for Allowance

2. Claims 1-26 are allowed.

3. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is a valve having the combination of a shutter that is configured to allow the at least one ball to freely rotate and roll along an inside surface of the valve body, thereby preventing the shutter from contacting a side wall of

the valve body with a magnetically driven ball with an external driving means disposed outside the chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
